Doesn't take much for me to make the ops turn to dust  
Even when there rust, I remove the phonies like crust  
Off the eyeball corner, someone should have warned ya  
It aint nothing new to do whatever I want ta  
When the track goes boom bap, heads be like who that  
Oh you don't know, that's the Old Man who raps  
Goes by Lugo, take the time so you know  
I don't play games, regardless who's numero uno  
My shit is always on punto, whether clean or sucio  
We can rock together, I'm taking me and you, juntos  
Two's better than one, a squad is better than a few  
Bum rush the show and let us do what we came to do  
I'm trying to form a team who can take world by storm  
I want scholars and a few goons, plus a chic who does porn  
So when I don't want fuck she already has herself an outlet  
She's calls that shit work and that's known from the onset  
Her work husband's no threat, I know the deal tho

Chic, men, dildos, but we keep the shit real tho  
I'm trying to have a girl who has a girlfriend, and she hot too  
And we all get down together once in a blue  
Not often, cause I know I can't hang  
Plus I like time for myself to do own thing  
Cause solitude's my best friend, keeps my brain sharp  
It's the perfect atmosphere for me to come up with darts  
Always sober, words get scribed of the natural  
No need for me to always be hyped, I do this here casual  
This will get to the ears of those who it matters to  
And if it don't catch you on the first round, I hope it gets back to you  
I might go a slap a few tracks with more impact  
For heads that's been waiting, yo, ya boy's back....  
It's the Old Man, CM in ya area, call the whole Clan

...Trying to catch lightning in a bottle  
Gotta keep the gears shifting, got no time to stand idle  
We are, built for survival, I don't need to be coddled  
Want acknowledgement, not fame, do I need to go viral?  
I swear, hand on a bible, it's not attention I crave  
Just want to do what I love to do, while trying to get paid  
Spark inspiration before I end up fading away  
Ya know, I'm not a youngin', I'm at a ripe 'ol age

Still do it cause I love it plus I'm better than some  
It's plain to see the more I do it the better I become  
Got 20 years plus growth, can flip it illa than most  
Know my do's and don'ts, you ain't gotta question my quotes  
If mumble is the sickness, then the cure is how I spit it  
Deliver the antidote, for all man, women, and children  
Now we can get down to business, all I need is one witness  
To view it, how I do it, so they can prove that's how lived it  
Yo, if you were looking for me  
Good vibes and laughter damn near mandatory  
I can listen to your ills but too much of it bores me  
We all deal with stress, we should all deal with less  
I'd rather see a smile on your face, frown out of place  
Negativity is such a waste of space  
Occupying your mind and time, no need for the hate  
We should all find a way to find happiness today  
It's tough though, you're ego will have you acting out of line  
You're dilemma might leave you with 1 option, commit a crime  
Some are blessed to have the world in their palm, without trying  
While the rest of us, fighting for scraps, feels like my face just got slapped  
When reality hits, there's nothing like it  
Clarity, you search for it like you were a psychic  
No crystal ball could tell you it all, don't get excited  
Live life day to day, I'm sure there's other ways  
For me though, I don't like to think ahead into the future  
Been disappointed time after time, look for the humor  
If you can map a path and make it the end, I'mma salute ya

If I'm 5 years planning, end result, I'm still standing  
Keep it simple, what I do is get paid for my work  
Still working on trying to get paid what I'm worth  
Trying to keep it all clean but if I get paid doing dirt  
I better never get caught or my life is cut short  
I rather go out in a blaze of glory than go to court  
Cause the system is only set up to show me no remorse  
That's why I rather live, laugh and love than be goon  
Work hard for this scratch, off days, sleep till noon  
Wake up, throw on a tune  
Maybe write something new  
Probably record and send it through  
Either way, I'mma do what I do

Time to get the day started, life of an unknown artist  
Before a single track hits the market, beats first fill up my small apartment  
If it aint the boom bap, then it's gotta spark something that'll resonate with the target  
Make sure I ride the beat and keep it authentic as I use the skills that I've harness  
These days, I write for me first, every line reflects what I've been through  
My journey is far from the worst, but my hurt might echo within you  
My joy, my pain, and my passion, might connect us with some similarities  
But there's only one me so when I tell my story I tell it the only way it has to be  
You know me and I know you, we're both good hearted people

No matter what we been through in the end, I consider us both equal  
So I won't look down and I won't look up, just look you in your eye  
I respect those who just be themselves and won't portray a lie

The path we walk, filled with pressure of  
Trying to get respect, power and wealth  
But through it all, the ups and downs  
I challenge you to always be yourself

Look at all of these phony, can't tell me that they're all happy  
Gotta be a whole different person, when out and about in society  
That's crazy to me, but probably more normalized then I could ever even realize  
Cause folks can't handle being criticize, always gotta be in disguise  
They play the role, good or bad, to uphold the standards that their circle has  
Keep your status rocking expensive purse and bags, while you popping percs and brag  
I don't mess with none of that personally, but you have your own life to live  
I aint one to tell you how to live that life, just know you have a lot of light to give  
I know you and you know me, all I want is to live life comfortably  
No bullshit in the mix, not one bit, don't even want to see it close to me  
But the allure of fame and status, never could I imagine just potent  
I've taken for granted the comfort that I feel within my own skin

The path we walk, filled with pressures of  
Doing things might compromise your health  
But through it all, the ups and downs  
I challenge you to always be yourself  
The path we walk, filled with pressure of

Conforming you to be somebody else  
But through it all, the ups and downs  
I challenge you to always be yourself

It feels good when the moods right  
Pen glides light with ease when the beat tight  
I love the street vibe without living the street life  
Got love for everyone, I aint the beef type  
Its respect all day and night, and if it aint, we aint gotta fight  
Just stay outta my sights and everything will be iight  
It be my peoples who be flagrant  
You mess with me, you mess with us, the drama aint for entertainment  
It's the real deal  
So I try to vibe out with folks who feel how I feel  
Especially females who can cook a meal and has of sex appeal  
Keeps it real and don't mind when I text to chill  
If we gonna talk, I rather do that face to face  
Cause that can easily lead to a warm embrace  
Welcome to my space, I'm all about having a good time  
With good people, good food, listening to good rhymes

*(hook)*

Yeah, yeah, know what I'm saying

When I'm on the mic there won't be no delaying  
Salute to the true school cats who aint playing  
We all here to have a good time so make your way in

Yo, keep your dreams in focus  
Don't care for dope but I do like that dope shit  
My drive to survive is on its own road trip  
Gave up on love, not a romantic hopeless  
Or is hopeless romantic  
I keep a level head, got no time to act frantic  
We've all been damaged, but its how you continue to  
Keep all the bullshit in the rear view  
Check it, life lessons always in the present  
Always keep you guessing but turns into history every second  
Aint no half stepping, no debating, no questions  
If you not sending me blessings, need to stay out of my presence  
I'm not here for turmoil and misery  
I'm not feeding off the hater ass energy  
You know my vibe is all about having a good time  
With good people, good food, listening to good rhymes

*(hook)*

You know, you know, you know me  
Type of dude to go and skip the parties  
Crowd of people don't do anything for me  
Attention seeker kill my vibe completely

I'm super chill, like 32 degrees  
The point where shit freeze, so ease up off me  
Won't give you the cold shoulder, but give you a blank stare  
To the point where people swear that CM don't care  
Don't get twisted, my heart is golden  
Gotta be around me constantly to see it aint frozen  
Its always love whether you friend or fam  
But I keep my circle small, most don't get the chance  
To see why my friendship is in such high demand  
Most folks don't even deserve my help hand  
But you know my goal it's always to have a good time  
With good people, good food, listening to good rhymes

*(hook)*

**6 THIS RIGHT HERE (FEATURING ILL WILL DA MICK) 3:02**

**Produced by** C Da 76er

**Written by** CM Lugo & Ill Will Da Mick

When was the last time you peeped my niceness  
Kindness of my heart or these mic devices  
Things done changed and my thoughts are priceless  
So keep ya two cents, action's what the price is  
No holds bar, stop all that talk  
That you couldn't walk before and you won't walk now  
Claiming you a boss but to me you look more like a clown  
I'm done fucking around, I'm on my grown man steez

So stop the bullshitting, do I have to add please  
I aint beggin no one for no things  
I aint snatching crowns off the heads of no kings  
Underground champ with no belts and no rings?  
Prefer to stay low key, just doing the damn thing  
Fuck what you thought, I'll go and ruin your man's dreams  
Were you part of those plans, my bad  
Now we all in the same damn boat, so sad  
But one of us gonna keep striving, growing  
And I'll place all bets on me to keep showing  
Yall how to never stop chasing  
Time to map the blue print on this attack formation

*(hook)*

What you about  
What you about this  
What you about this right  
What you about this right here

Yo, it's been a minute, I'm killing with it, don't disparage  
I'm still in it like a miscarriage  
The day I spit average, same day I quit rappin'  
My flow is feng shui, mixed with Frank Zappa  
Shank stab ya, smoke dank like thank ya  
Throw the lob, don't clank it  
Dunk it like your head in a swirly  
Acting like a stooge like Mo, Larry, Curly

Call the cabby early or you're stuck driving drunk  
Make the early bird feel squirrely  
Sniffing up the diesel, since the days of Pauly Shore, it's the weasel  
Been doing this is easy  
When I talk that shit, get you tapping your feet  
Taking hits cause I'm happy to be  
Here with CM, we back on these beats  
So lets go like Tecmo with Bo Jack, there's no tackling me  
Keep tapping them keys and pushing them buttons  
I'll be smoking my weed and drinking on something  
Aint shit you can tell me, I'll Chuck Liddell you  
Check the over hand fist, go head a diss, but hey  
What you know about this...

*(hook)*

**7 WE AIN'T THE SAME 3:57**

**Produced by** Page Turner

I'm trying to reach paradise  
As I shake up these pair of dice  
Hit me with that seven eleven, double my chips up twice  
Old Man want to bring home something nice  
Shorty with the surgical double D's is staring me down  
But that wig and all that make up make her look like a clown  
I'm saying, that's not what I'm really into

I need something that looks a lot more official, not artificial  
I'm sure someone will get with you, but not me though  
Desperate times behind me, does lust control me, no  
Focused on accumulating wealth, then move stealth  
Strategize with a team or do it all delf  
I'm use to moving all on my own, ever since I became grown  
I realize most people I come in contact with aint what they show  
It's all a show, just a facade  
Meant to take advantage and stack up the odds, we just different

*(hook)*

We aint the same type  
I'm on a whole different wave and my lane tight  
You know, straight and narrow, sharp and on point like an arrow  
I'm just trying to blow your mind like my rhymes a double barrow

It's aint all sunshine or rainy days  
A level head will get you on your way  
Stay clever, at least a step ahead and be willing to break bread  
Pay attention to all the jewels that be fed  
Be ready for when words turn to lead  
Cause for those who's rooting for you, at least one will probably want you dead  
It's just the nature of the beast  
That's why I always stay humble and keep most my actions discrete  
It don't take much to make moves  
Just takes balls and sometimes a few you call crew  
Dust yourself off and show 'em what you need to prove

Cause most people won't see it till you got nothing else to lose  
Lay it all on the table, then show 'em that you're able  
Some might get it but most will try to shade you  
Discredit your whole dream, shit on your whole team  
So they can eat, making you look bad is part of their scheme, but not me

*(hook)*

...I'm automatic like I'm automated  
Some would love to see me make it just so they can come and take it  
What I must I do to become one of your favorites  
Sound like who? Guess I'm geared to become one of the most hated  
I can hear 'em, You're too old CM!  
Spit hot phlegm, tempt me, might go do it again  
At some point, this shit gotta end, preferably by 10  
That's when I settle in anyways, just another fucking day  
Bring the ruckus, right here, right now  
Smack your mic in the crowd, makes them all go wild  
Yo, they all love a good shit show, no need to tip toe  
Anarchy looks fun from a distance, pop goes the pistols  
Chitty bang, shorty with the city slang  
Aint playing, thought she was Mef the way she came to bring the pain  
I don't bother to politic with those who crazy and derange  
If you aint open minded, don't mind me when I look at you kinda strange, like

*(hook)*
