we might even exist together on the outer fringes of uncertainty
• living pod in the ruins of a blue collar city • do you ever think
about dying i think of it all the time • let the banks disfigure you
in small ways • the village wants to kill me on monday •
exploring the implications of abandoned airports and the
concentric halos that appear above them • malevolent creatures
now stalking the land • has anyone seen the moon lately i have
been looking for seven days • the 1992 world cup tore our family
apart • i am paralyzed with happiness • rhythmicon • the
dystopia of small scale living spaces • you have yet to meet
everyone who will not love you • the weather machine did it •
you can find me in my echo chamber • i have seen the life on this
planet and that is why i am looking elsewhere • how do you
know what happens on the sun have you ever been there •
global warming would have saved the titanic • we got a ghost in
the neighborhood • speculative proposal for ephemeral
microplastic cities that will never die
