BACKYARD GODS, EATM's 17th album, represents the next step in the band's evolution from the wild, unrestrained approach to improvisation that marked its early releases to the more disciplined, measured sound they demonstrated on their more recent albums, 2024's *Poconos Flows* and 2025's *MEAT EATM*. Empowered by a new mixing board that allows for multi-track recording, producers Headsnack, Old Yist, and Man Halen have been able to take the free, improvisational stylings that have come to define the EATM experience and craft them into tighter, more focused, and sonically rich works. The result is an album of 19 songs recorded over a January 2025 weekend in Hillsdale, New York that features the eight-man ensemble cycling through an eclectic, inspired mix of hip hop, rock, funk, soul, jazz, and folk that includes songs of pure improvisation, written originals, and irreverent quasi-covers, all imbued with EATM's signature comedic flair. Together, these songs coalesce into the fullest realization of EATM's potential to date.
